Ok

Click "Ok"

The below page will appear

Select "Demo"

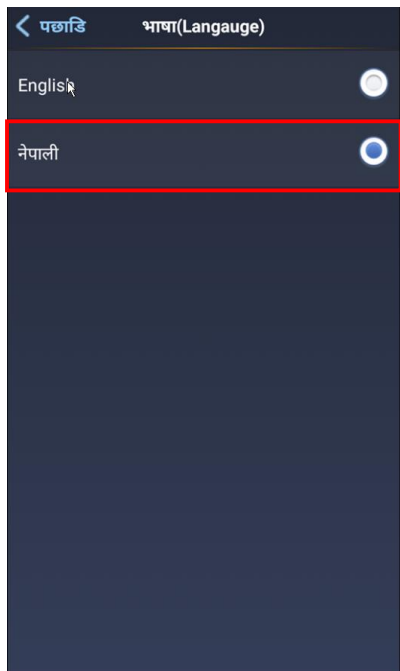

Enter "Username" and "Password"

Click "Remember me" if you want to save your password.

Click "Login"

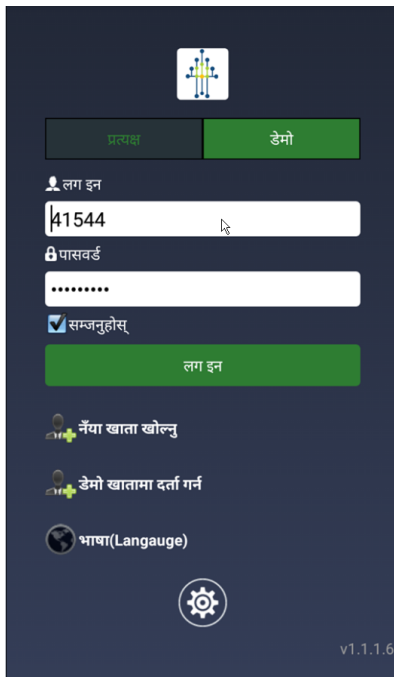

Click "Language" to change it according to your need

If you click language, below page will appear

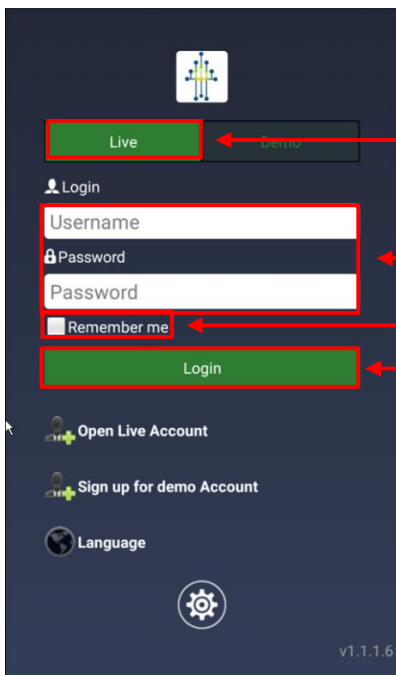

English is the default language, so you can switch to "Nepali Language" by simply clicking on this.

Login Page in Nepali Language will appear

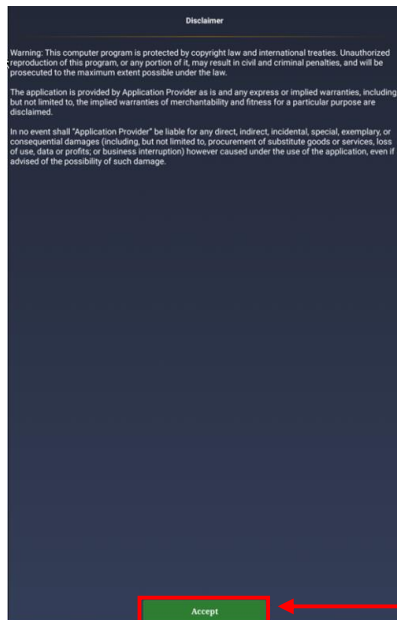

The image shows a login page in Nepali. At the top, there is a logo and two buttons: 'प्रत्यक्ष' (Direct) and 'डेमो' (Demo). Below these are the labels 'लग इन' (Login) and 'पासवर्ड' (Password). The username field contains '41544' and the password field is masked with dots. There is a checked checkbox for 'समजनुहोस्' (Remember me) and a green 'लग इन' (Login) button. At the bottom, there are links for 'नया खाता खोल्नु' (Open new account), 'डेमो खातामा दर्ता गर्न' (Register for demo account), and a language selector 'भाषा(Language)' with a gear icon. The version 'v1.1.1.6' is at the bottom right.

3. To login LIVE Account

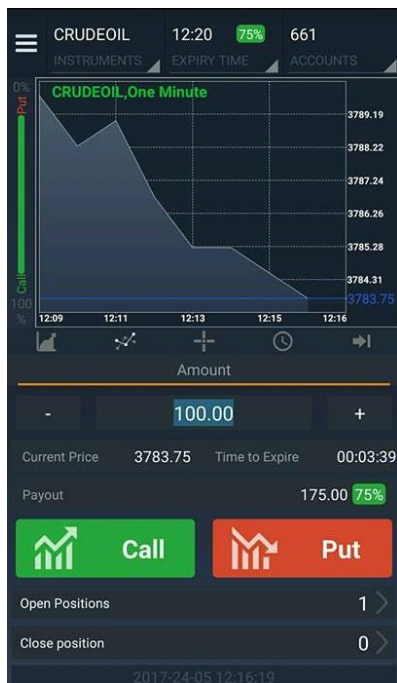

The image shows the same login page but with English text and red annotations. The 'Live' button is highlighted with a red box and an arrow pointing to it with the text 'Select "Live"'. The 'Username' and 'Password' fields are highlighted with a red box and an arrow pointing to them with the text 'Enter "Username" and "Password"'. The 'Remember me' checkbox is highlighted with a red box and an arrow pointing to it with the text 'Click "Remember me" if you want to save your password.'. The 'Login' button is highlighted with a red box and an arrow pointing to it with the text 'Click "Login"'. The version 'v1.1.1.6' is at the bottom right.

The below page will appear

Read the disclaimer and Click "Accept" to continue.

4. Trading page will appear

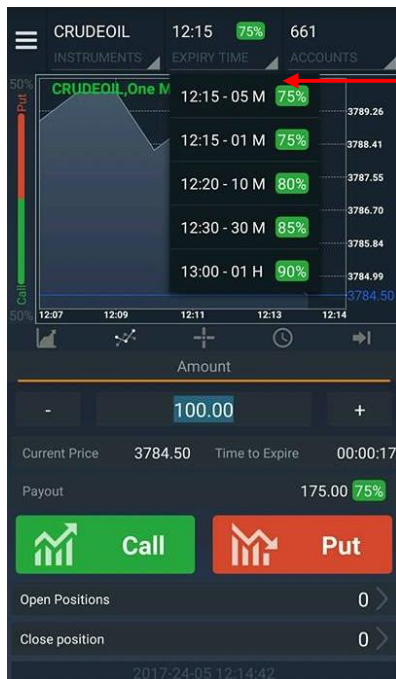

5. Changing the products to trade

Click to select the product/instruments in which you want to trade.

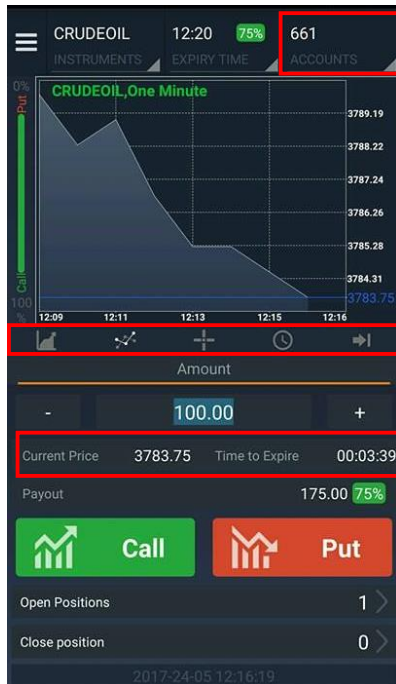

6. Changing the Time intervals

Click to change the expiry time that you want trade. One can select any time frame i.e.1Min, 5Min, 10Min, 30Min and 1 Hour.

7. App Interface features

i. Chart types, Technical Analysis & Cross Hair

It displays the account number of a client

Click on the icon to get different chart types, technical analysis, chart time interval, cross hair etc.

The spot bid price of selected commodity is displayed in current price and expiry time of a contract can be viewed in Time to Expiry. One cannot take order when contract is expiring before 30 Seconds for 1 minute contract. Similarly the lockout period for 5 minute, 10 minute, 30 minute & 60 minutes are 1 minute, 2 minute, 5 minutes and 10 minutes respectively.

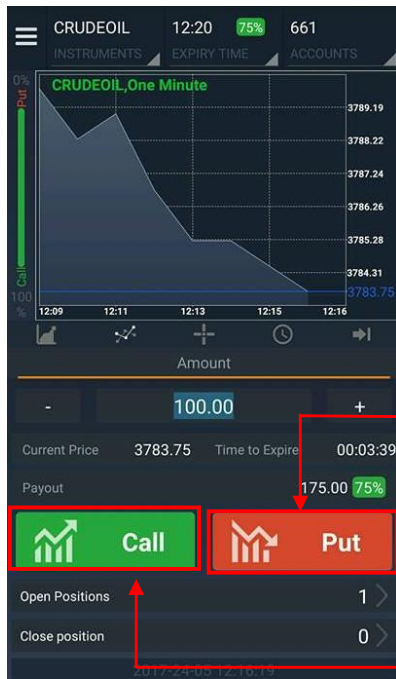

ii. Investment Amount & Payout

Use + to increase or – to decrease the amount of investment. You can also enter the amount by yourself.

Payout is a realized return from an investment. Payout varies according to various time frames.

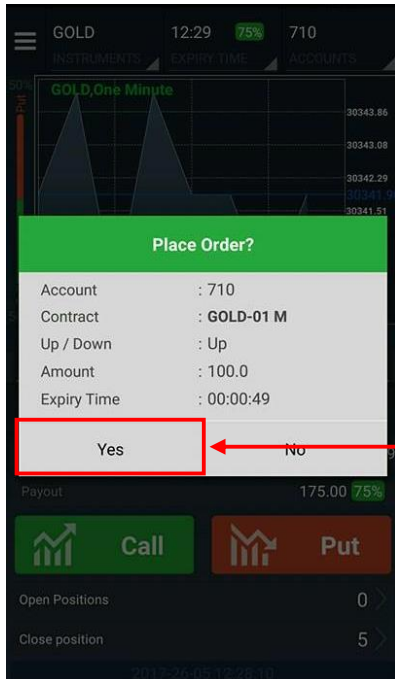

8. To trade

When you think that the price will decrease than the current price, one must click a Put order.

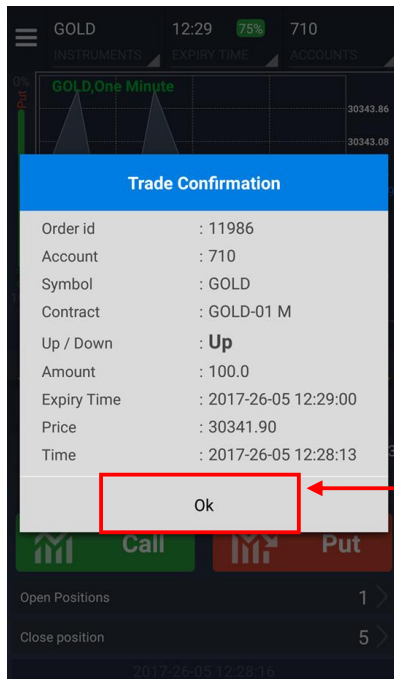

When you think that the price will increase than the current price, one must click a Call order.

When you place an order, the below page will appear

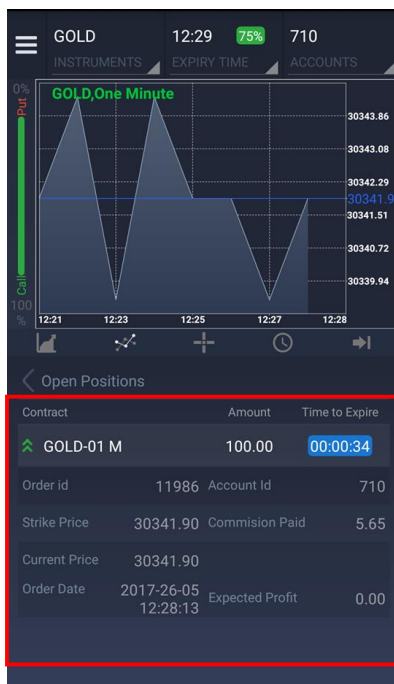

The screenshot shows a 'Place Order?' confirmation dialog box. It contains the following information: Account: 710, Contract: GOLD-01 M, Up / Down: Up, Amount: 100.0, and Expiry Time: 00:00:49. At the bottom, there are two buttons: a green 'Yes' button and a red 'No' button. Below the dialog box, the 'Call' and 'Put' buttons are visible, along with 'Open Positions' (0) and 'Close position' (5).

Click "Yes" to confirm the trade.

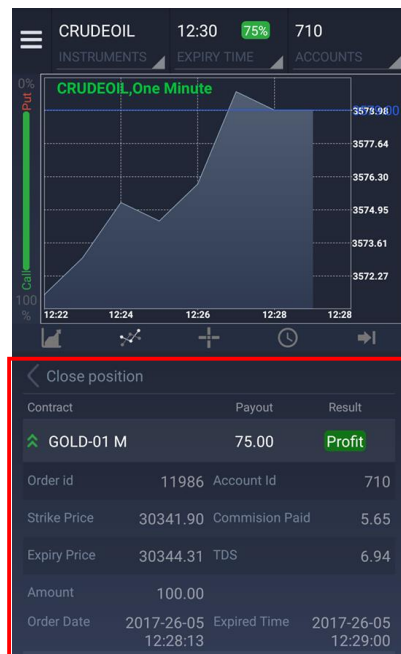

Click "Ok" to Confirm

After trade confirmation the order will be shown in Open Positions tab

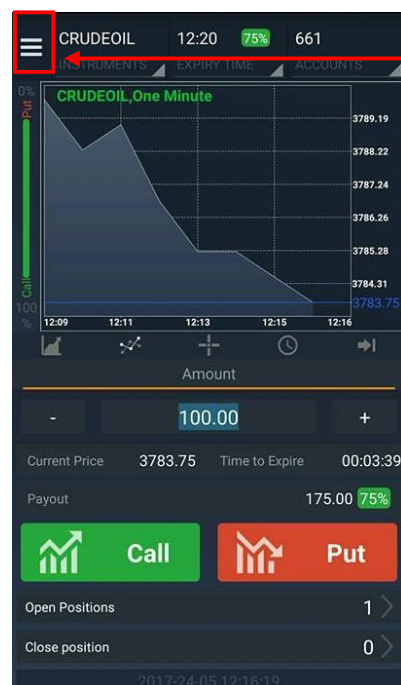

After trade expiry, the order will be shown in Close Position tab

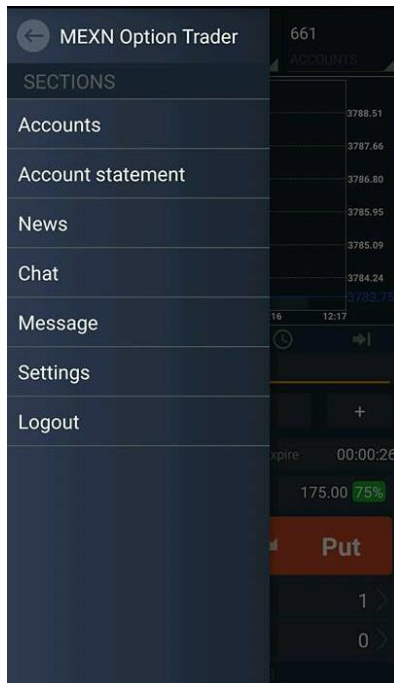

Note: The price of call or put order when executed for the first time is called strike price. In order to have profit the current price should be higher than the strike price in case of call order and vice versa.
